- Established recruitment partnerships with companies seeking qualified talent. - Managed client relationships and recruitment agreements. - Identified, screened, and shortlisted candidates based on client requirements. - Conducted initial interviews to assess candidates' qualifications and suitability. - Matched candidates with client organizations, ensuring an efficient hiring process.	
Financial Advisor — Bank AlJazira, Riyadh, Saudi Arabia	January 2018 – May 2018
- Conducted field marketing activities to promote the Takaful AlJazira program. - Engaged with potential customers and introduced program benefits. - Registered new customers and built relationships throughout the enrollment process. - Achieved customer acquisition targets through effective field marketing and communication.	

PROJECTS

Bilingual Personal Portfolio Website — najwa-d.github.io	2026
- Planned and produced a fully bilingual (Arabic/English) portfolio website with automatic RTL/LTR switching, published live online. - Directed the visual design and content structure, including scroll-based sections and responsive layouts for mobile and desktop. - Integrated web analytics to track visitor traffic and engagement. - Managed the publishing workflow through GitHub, from repository setup to updates and live deployment.	
BrandOS AI — AI-Powered Branding Platform	2026
- Contributed to the concept and design of an AI platform for brand building, covering competitor analysis, audience personas, brand identity generation, and content ideas. - Defined feature requirements for a recommendation engine and a KPI dashboard to measure brand performance.	
Company Knowledge AI Agent — Internal AI Assistant	2026
Participated in developing an internal AI assistant that answers employee questions and retrieves organizational information from a centralized knowledge base.	
Enterprise SQL Database & Executive Dashboard — Data Platform	2026
- Helped design a centralized SQL database covering HR, Finance, Clients, Projects, Marketing, Suppliers, and Legal data. - Supported the creation of an executive dashboard with cross-department reporting and AI-assisted analytics.	
Employee Ideas Portal & Innovation Dashboard — Web Platform	2026
- Designed a web platform enabling employees to submit, track, and vote on improvement ideas, linked to a SQL database. - Built an admin control panel concept for monitoring participation rates, idea scores, project status, and innovation KPIs.
